

**Washington State Society of Anesthesiologists**  
**Annual Fall Scientific Meeting**

**September 13, 2008**

Bell Harbor International Conference Center  
Pier 66, 2211 Alaskan Way • Seattle, WA

**Saturday, September 13, 2008**

- 7:00 – 8:00 AM Registration, Continental Breakfast and Exhibits
- 8:00 – 9:00 AM *Perioperative Genomics*  
**Debra Schwinn, MD** – Professor and Chair, Department of Anesthesiology,  
University of Washington
- 9:00 – 10:00 AM *Perioperative Beta Blockade*  
**Martin London, MD** – Professor of Clinical Anesthesia, Department of  
Anesthesia and Perioperative Care, University of California, San Francisco  
Attending Physician, San Francisco VA Medical Center
- 10:00 – 10:30 AM Coffee Break/Exhibits
- 10:30 – 11:30 AM *Surgical Care: The Neglected Stepchild of Global Health*  
**Peter J. Dunbar, MD** – Professor, Department of Anesthesiology, University of  
Washington
- 11:30 – 12:30 PM *Perioperative Glycemic Control*  
**Irl Hirsch, MD** – Professor, Department of Medicine, University of Washington
- 12:30 PM Luncheon  
*Guest Speaker: Brian Wicks, MD*, President, Washington State Medical  
Association

## CME OBJECTIVES:

### **Debra Schwinn, MD**

#### *Perioperative Genomics*

The meeting participants will be able to 1) discuss the importance of perioperative genomics as it relates to cardiac outcomes; 2) cite the different areas of anesthesia where perioperative genomics has been identified to affect responses to different anesthesia medications and outcomes.

### **Martin London, MD**

#### *Perioperative Beta Blockade*

The participants will be able to 1) discuss the most recent results of the POISE trial and other randomized controlled trials for perioperative beta blockade and outcomes; 2) cite the current indications for perioperative beta blockade with respect to type of surgery and patient population.

### **Peter J. Dunbar, MD**

#### *Surgical Care: The Neglected Stepchild of Global Health*

The participants will be able to 1) discuss the state of surgical disease and outcomes internationally in underdeveloped countries; 2) describe current efforts to improve surgical outcomes in underdeveloped nations.

### **Irl Hirsch, MD**

#### *Perioperative Glycemic Control*

The participants will be able to 1) discuss the most recent studies involving tight glycemic control and outcomes; 2) cite the best management strategy for perioperative glycemic control for elective surgery in diabetic patients, and for critically ill patients having urgent/emergent surgery with elevated glucose levels.

## CME STATEMENT:

The Washington State Society of Anesthesiologists is accredited by the Washington State Medical Association CME Accreditation Committee to sponsor continuing medical education activities for physicians.

The Washington State Society of Anesthesiologists designates this educational activity for a maximum of **4 hours** in Category I to satisfy the re-licensure requirements of the Washington State Medical Quality Assurance Commission. The Washington State Society of Anesthesiologists designates this educational activity for a maximum of **4 AMA PRA Category 1 Credit(s)**™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

## DISCLOSURES:

Dr. Hirsch is a consultant for Eli Lilly and Novo Nordisk.

**Registration is complimentary for WSSA members.**

Non-member registration fee is \$100.
